## **CAREER OBJECTIVE**

Detail-oriented and self-motivated professional with experience in data analysis, database development and data modelling. Frequently praised as diligent, efficient, and team-oriented by peers and superiors, I can be relied upon to help your company achieve its short and long-term goals.

## **EXPERIENCE**

### **FLORIDA HIGH TECH CORRIDOR COUNCIL**

*stemCONNECT Data Intern, Feb 2022 – Present*

- Created business intelligence tools and systems, including the design of relational databases in Zoho Creator, spreadsheets in Microsoft Excel, dashboards, charts, and reports.
- Used SQL queries to retrieve relevant information from the stemCONNECT database for use in data analytics and visualization.
- Coordinated with stemCONNECT session team members to identify and correct missing or erroneous contact and partner data to streamline marketing campaigns and increase the analytic accuracy of demographic data.
- Collected, cleaned, analyzed, visualized, and presented session performance metrics to the stemCONNECT outreach team, allowing for the identification and correction of deviations from performance standards.
- Conducted demonstrations of and provided technical support for completed CRM application for team members as well as direct and indirect superiors .
- Generated custom reports and charts in Zoho Analytics to summarize marketing, contact, and social media data.

### **BRITTANYBRYCE.COM**

*Data Analysis Blogger, Sep 2021 - Present*

- Composed blog posts of advanced statistics projects and tutorials using R programming.
